How will we use the i>clicker?

- The instructor will pose questions on the screen during lecture.
- Students will answer using their i>clicker remotes.
- Class results are tallied.
- The instructor can display a graph with the class results on the screen.
- Discuss the questions and answers.
- Results can be tied to students.

How do you vote?

- Turn on the clicker by pressing the bottom “On/Off” button.
- A blue “Power” light will appear at the top of the remote.

How do you know your vote was received?

- Check your “Vote Status” Light:
  - Green light = your vote was sent AND received.
  - Red flashing light = you need to vote again.

Not sure you saw the light? Just vote again.

Want to change your vote? You can vote again as long as the timer is still going.

Registering your i>clicker

Students can earn points for i>clicker responses (for participation and/or answering questions correctly).

Until a student registers their i>clicker, their responses are tied to their clicker remote ID (located on the back of the clicker), rather than to the specific student.

When a student does register, their previously recorded voting responses will be assigned to them.

Registering i>clicker online

1. [http://www.med.illinois.edu/students/m1/iclicker/](http://www.med.illinois.edu/students/m1/iclicker/)
2. Login using UIUC NetID
3. Continue on the i>clicker website.
4. Enter clicker ID and captcha number.
5. Click “ENTER”
