Name: __________________________________________________________

Last     First     Middle

Telephone    E-mail    Citizen Status

Graduate department     Year of program     PhD/Ma?

☐ Application coversheet (this sheet)
☐ One-page explanation of research and future plans
☐ Curriculum Vitae

The recipients shall be conducting research related to diabetes in humans in the fields of Medicine, Biology, Biochemistry, Chemistry, Bioengineering or other relevant fields as determined by the interdisciplinary committee. Preference shall be given to graduate students who have experienced the disease of diabetes either personally or in their families. The College of Medicine will administer this award. The College of Medicine is responsible for promoting the award across all relevant campus units, including, but not limited to, departments within the College of Engineering and the College of Liberal Arts and Sciences as well as through units such as the Institute for Genomic Biology and the Beckman Institute for Advanced Science and Technology. An interdisciplinary committee of six faculty representatives from the Colleges and Institutes listed above shall review proposals and determine the recipients, amounts and timing of the awards, subject to the approval of the appropriate University officials.
