Building rules

Teaching laboratories/classrooms are located on the second and third floors of the Medical Sciences Building (MSB). The laboratories are maintained for your benefit and we ask your cooperation with the guidelines for use outlined below. To schedule classroom space for use by a student organization, please contact Deann Knollenberg or Rita Knight in room 190 Medical Sciences Building (MSB).

* The Medical Sciences Building (MSB) is a SMOKE - FREE building.

* BICYCLES and PETS are not allowed in the building at any time. Bicycle racks are available in areas immediately north and east of the Medical Sciences Building. When parking your bicycle it is highly recommended that you lock it up with a high quality lock and chain.

* Metered PARKING is not readily available near MSB during the day and should not be counted on. College of Medicine parking spots east of the MSB building are generally not available to students. Exceptions may be made for special circumstances but must be requested AND APPROVED online ahead of time. ([http://www.med.illinois.edu/](http://www.med.illinois.edu/) under the Administration tab). You will be ticketed and possibly towed if you park illegally on campus. After 5:00 p.m. any University spaces may be used except for the ones that have a 24 hour rental sign. Parking is not allowed in University lots between 2:00 and 6:00 a.m. Please visit the Campus Parking Office in the Safety and Transportation Building at the corner of Springfield and Goodwin Avenues to discuss your parking options.

* The STUDENT LOUNGE (the HUB) is yours - PLEASE KEEP IT CLEAN!

* Make sure that all DOORS are securely shut and locked and all LIGHTS are turned off when you leave labs or study rooms. Doors to Anatomy labs should remain closed at all times, even while you are inside.

* FOOD and DRINKS are prohibited in the student laboratories. Note the posted signs. This is a biosafety issue to protect you.
